EDUCATION

BSc Mechanical Engineering , Technische Universiteit Eindhoven	2025 - Expected 2028
Relevant Coursework: Mechanics, Dynamics, Calculus, Introduction transport phenomena, Structures and properties of materials, Principles of design and programming	
Average: 8.0/10	
Psychology , South China Normal University	2022 - 2025
Average: 88.5/100	

SKILLS

Technical Skills	Python, Matlab, Marc Mentat, Siemens NX, Arduino, IBM SPSS
Soft Skills	Communication, project coordination, workflow improvement, logistic management
Language	Chinese (native), English (C1), Dutch (elementary), Japanese (elementary)

PROJECTS

Design of a launching mechanism. Built a simple launching mechanism with limited energy source, using trajectory analysis with ODE in Python and Matlab and CAD design for components in Siemens NX.

Multipled robot design. Built a robot that finishes a designated route, using inverse kinematics modelling in Siemens Simcenter Motion, CAD design for components and Arduino programming of sensor and servo motor control.

Design of a truss structure. Built a truss structure to sustain certain amount of load, using static FEA, calculations and simulations of force distribution in Mentat.

EXTRA-CURRICULAR ACTIVITIES

- Creating [blog posts](#) on technical issues, gaining 4K unique visitors per month.
- Community webhosting, providing several instances of free and open source software to a group of people, with skills in coordinating user needs, resource allocation, and basic service maintenance. Implemented minor features and troubleshooting improvements for hosted services.

EXPERIENCE

Private tutor Self-employed	Sept 2024 - Mar 2025 <i>Shantou, CN</i>
• Tutored primary school students in mathematics and science. • Expanded students' knowledge and encouraged curiosity about advanced problems.	
Secretary-General's Office Staff Psychological Research Society, School of Psychology of SCNU	Sept 2022 - Jun 2023 <i>Guangzhou, CN</i>
• Responsible for the logistics management of the society • Tracked inventory and expenses • Improving workflow between different departments
